## **Skillset**

- Expert ability to hand-code **XHTML / CSS** according to latest **W3C and WCAG standards**
- Advanced knowledge of javascript (including **AJAX** and **jQuery** library), understanding of object oriented programming paradigm, experience working in an **agile environment**
- Knowledge of **php** and **MySQL**, experience with various template systems (**Smarty, Template Toolkit**) and file versioning software: **CVS, SVN, git**
- Practical knowledge of **Adobe Creative Suite** and similar products
- Efficient in managing a team of developers, excellent interpersonal skills
- Ability to work under tight time constraints and stress, focused on delivering high quality products in agreed timeframe
- High work ethics and initiative

## **Achievements**

During my contract with Optus I have proved to be a very skilled team leader and web developer by delivering the user interface and javascript application as part of a cutting edge converged (mobile and pc) web portal. Coordinating an international team required very high interpersonal skills as well as the ability to appropriately delegate work and manage our deliverables. The final product, the OptusZOO portal, complies with strict Australian and Optus standards of quality.

## **Foreign languages**

English: fluent

French: basic

Spanish: basic

## **Hobbies**

Scuba diving, skiing, travelling
